

SANTIAGO candleholder

Crafted of exquisite, opalescent onyx, Santiago Candleholder exudes strengths and elegance.

Diamond textured Brass accents break the minimalism of the Design, while natural qualities of onyx vary pattern and nuances for a unique finish.

Bold in its appearance, Santiago is able to transcend the ephemeral nature of Amber&Oud fragrances of wax and work as a standalone accent piece thanks to a glass insert. Refined and sophisticated look combined with a strong and vigorous attitude, as the Soul that inspired it.
