

K A T A coffe table

Sharing its name with the Maya word for “grid” or “woven”, the Kata Coffee Table embodies the core ethos of Ex Forti—a brand rooted in the bold forms and architectural strength of Brutalism. Expertly handcrafted in silk -lacquered wood, its monolithic silhouette is defined by clean, powerful lines. The solid volume is artfully punctuated at all four corners by textured, burnished brass bands seamlessly recessed into the structure, creating a striking interplay between raw architectural presence and artisanal craftsmanship.
