

EX FORTI

HECTOR & MUSA

Hector & Musa Candles come together in a composition that winks to the sculptural monumentality enriched by precious tactile and visual textures and characterized by the unmistakable signature of Ex Forti. Carefully selected and handcrafted, brass is turned into a protagonist embedded in a wax structure meant to last.

A tribute to the oldest and truest feeling of the universe, Love, able to resist to the adversities of space and time.

By resampling the compositional style of the ancient Spartan war helmets and the tunics of Greek women, Hector & Musa find their raison d'être both as candles and as furniture and design objects.

The composition, in wax and burnished brass, is available in three versions: the Black nuance represents a strong and vigorous soul, as Hector's, and releases notes of Tobacco & Wood; the Ivory and Burgundy nuances recall a warmer and feminine spirit, as Musa's, through the scents of Amber and Oud.

MATERIAL Wax, Burnt Brass, Linen
Ambra & Oud essential oils (Ivory wax)
